

# COME SEE OUR NEWEST ARCTIDRY

Mojave's flagship product has exciting new features now available.

## THE SAME DEHUMIDIFICATION AND ENERGY EFFICIENCY YOU'VE COME TO EXPECT FROM MOJAVE.

- ISMRE2 efficiency rating of up to 11 lbs/kWh
- Lower electricity consumption by up to 50%
- Supply air dewpoints as low as 35°F
- Installs like conventional packaged HVAC equipment
- Easy to operate and maintain
- Manufactured in Anderson, SC

## HEAT PUMP

- Operates down to 10°F ambient temp
- Supplemental heat available: gas, electric, hot water
- Integrated Seasonal Coefficient of Performance (ISCOP2) of 3.0
- Available in the existing ArctiDry platform up to and including the ADB-40

## EXTENDED COMPRESSOR CAPACITY

- 50 and 60 ton options
- Using Copeland R-454B variable-speed tandem compressors
