

A BREATH OF FRESH AIR FOR HOTELS

Mojave's HVAC solution is the most energy-efficient and cost-effective way to elevate air quality and comfort.

ArctiDry from Mojave efficiently dehumidifies and controls air temperature, to cost effectively maximize guest comfort.

Mojave's patented liquid desiccant technology is designed to independently control dry bulb and dew point, optimizing guest comfort with precise, independent control of temperature and humidity.

Precise control of temperature and humidity

Significant Energy Savings

Web Monitoring Accessible 24/7

ArctiDry provides superior air control to facilities' managers to ensure guests and staff have a healthy and comfortable environment. By dehumidifying in addition to controlling temperature, the dry air from the system prevents condensation in guest rooms and common areas, reducing odors and helping avoid mold growth.

A drop-in replacement for existing HVAC units, Mojave provides both cutting edge performance and easy maintenance.

Hotels and similar properties often struggle to balance ambient conditions, energy efficiency, and cost-effectiveness while ensuring guest comfort. Mojave offers a unique HVAC solution that meets all these needs, allowing property managers to avoid compromising one for another.

Performance. Flexibility. Efficiency. Value.

Mojave ArctiDry gives you unparalleled control over temperature and humidity, all in a single packaged unit.

Product Specifications

	A CABINET	B CABINET
AIRFLOW	1,000-3,000 CFM	3,000-6,000 CFM
EFFECTIVE CAPACITY	UP TO 25 TONS	25-60 TONS
MOISTURE REMOVAL	UP TO 130 lb/hr	UP TO 380 lb/hr
SUPPLY AIR CONDITIONS	55-75° F DB 35-55F DP (30-64 gr/lb) 3 inwg ESP Available	
ISMRE2	Up to 11 lbs/kWh	
REFRIGERANT	R-454B	
CONSTRUCTION	2" Double Wall, R-13	
WEIGHT	3500 lb	6500 lb
CONTROLS	Factory Packaged Controls w/ HMI Modbus, BACnet MS/TP or IP, or LonWorks available	

Precise Temperature & Humidity Control

Unparalleled Efficiency
